On October 16, 2018 COGCC SW EPS Jim Hughes conducted an environmental field inspection of the BP Perino Water Transfer Station Spill/Release Point #445606. Remediation Project #9673 was closed once analytical results were compliant with Table 910-1 standards. Vegetation is sparse in the surrounding area due to cattle grazing. The remediated area appears to have similar vegetative cover as the land outside of the project area.	hughesjo	10/25/2018
