## West Fork Pipeline to J25A 596 (335650) Form 4 - Waste Management Plan

Arauza - DNR, Steven <steven.arauza@state.co.us>

Thu, Oct 11, 2018 at 8:55 AM

To: trust@caerusoilandgas.com, JJanicek@caerusoilandgas.com, bmiddleton@caerusoilandgas.com

In addition to the eForm 27 Site Investigation and Remediation Workplan that I referenced previously, land treatment of spoils from the West Fork 3-Phase line release at another location (the J25A 596 pad) will require a Variance per Rule 907.e.

Thank you, Tyler. The Waste Management Plan describes land treatment of impacted material, "periodic turning/tilling events [that] will occur followed by sample collection until all impacted material is compliant..."

Land treatment of material from Spill/Release ID #457694 at the J25A 596 Pad would require an approved eForm 27 Site Investigation and Remediation Workplan to document land treatment. Approval for land treatment cannot be granted via a Form 4 Sundry.

Have representative samples been collected from the soil stockpile?  
Is Caerus not planning to haul impacted soil to disposal?

Feel free to give me a call to discuss, 720-498-5298.

Steven,

The attached Form 4 (Doc # 401789438) was just submitted via the eForm process. Please review and let me know if you have any questions.

Thanks,

Tyler Rust
