Ladies and Gentlemen:

Noble Energy, Inc. (Noble) is applying to the Colorado Oil and Gas Conservation Commission (COGCC) to drill wells on the above referenced pad. COGCC Rule 317.s. stipulates that no portion of a proposed wellbore's treated interval shall be located within 150 feet from an existing (producing, shut-in, or temporarily abandoned) or permitted oil and gas wellbore's treated interval without the signed written consent from the operator of the encroached upon wellbore. As currently planned, the following wells' treated intervals are within 150 feet of the proposed horizontals' treated intervals:

**Aristocrat Angus 14-10, (API: 05-123-17032) 60' from proposed Beebe Draw H15-783  
Federal 11-10, (API: 05-123-16913) 53' from proposed Beebe Draw H15-774  
Aristocrat Angus Federal #1-2-10 (API: 05-123-22396) 143' from proposed Beebe Draw H15-774  
Aristocrat Angus Federal #2-10 (API: 05-123-22386) 143' from proposed Beebe Draw H15-774  
Federal 22-10 (API: 05-123-17096) 65' from proposed Beebe Draw H15-764  
Federal 12-10 (API: 05-123-17136) 88' from proposed Beebe Draw H15-764**

Pursuant to COGCC Rule 317.s, the signed written consent shall be attached to the Application for Permit to Drill Form 2 for the proposed wellbore. The distance between wellbores measurement shall be based upon the directional survey for drilled wellbores and the deviated drilling plan for permitted wellbores, or as otherwise reflected in the COGCC well records. The distance shall be measured from the perforation or mechanical isolation device.

Per COGCC Rule 317.s, Noble is requesting operator's consent of the encroached upon setback for the existing wells referenced above. Should you find this acceptable, please so indicate by executing a copy of the consent and returning to my attention in the provided self-addressed stamped envelope.
