COMMENTS:

The Permanent packer set at 8,421' started to leak and would not pass the MIT & would be too hard to remove and keep casing integrity allowing another packer to be set at the current depth or deeper. The decision was made to leave the old packer in place and set another permanent packer at 8,346' (75' above the old packer). COGCC's UIC Lead, Robert Koehler gave verbal okay on October 20, 2018 at 15:38 to Neel Duncan with IPT. This permanent packer was set on November 1, 2018 & passed the MIT November 5, 2018. Updated WB Diagram is attached.
