Comment:

This location is not in compliance with Rule 1004. Reclamation rules require reclamation activities to be conducted within twelve months of plugging on non-cropland. Well was plugged 9/08/2017. Operator has failed to perform final reclamation activities (i.e., remove gravel, culvert, decompaction, seedbed prep and seed) at the well and tank battery location, and along the access road. Please refer to the attached inspection photos for more detail.

Note: Per Rule 1004, every reasonable effort shall be made to complete reclamation before the next local growing season.

Corrective Action:

Comply with Rule 1004. Corrective action date is being back dated to when all final reclamation activities should have been completed.

Date **09/08/2018**
