**RE: COGCC Rule 603.a.(2): Property Line Exception Location Request  
C29-03 Pad: NENW Section 29, Township 4 North, Range 64 West  
Weld County, Colorado**

Dear Director Murphy,

Noble Energy Inc. plans to drill five (5) wells on the C29-03 Pad. COGCC Rule 603.a.(2) states that a well shall be located not less than one hundred fifty (150) feet from a surface property line. The surface location of one of Noble's proposed wells shall be less than one hundred fifty (150) feet from a surface property line and is being permitted as an exception location. The table below shows which well is within 150 feet of the property line:

Well Name	Doc #	SHL Footage	Distance
Johnson C32-715	401790831	330'FNL/2511'FWL	133

As referenced in 603.a.(2), the Director may grant an exception if it is not feasible for the Operator to meet this minimum distance requirement and a waiver is obtained from the offset Surface Owner(s). The surface owner is the property owner on both sides of the property line and the wells are being proposed at a location agreed upon with the surface owner of both properties via a signed Surface Use Agreement.

Noble respectfully requests the approval of the property line exception location request and Applications for Permit to Drill for these wells. If you should have any questions or require additional information, please contact Noble at 303.228-4232. Thank you for your consideration of this matter.

Regards,  
**NOBLE ENERGY, INC.**
