CORRECTIVE ACTIONS:

1 CA# 120201

Corrective Action: Install sign to comply with Rule 210.b.

Date: 12/06/2018

Response: CA COMPLETED

Date of Completion: 11/12/2018

Operator Comment: COGCC Rule 210 b. states "Permanent Designations. (1) Wells. Within sixty (60) days after the completion of a well, a permanent sign shall be located at the wellhead which shall identify the well and provide its legal location, including the quarter quarter section. When no associated battery is present, the additional information required under Rule 210.b.(2) shall be required on the sign." In this case the tank battery is visible and present from this well head and the current sign has all the info for 210.b(2). In the operators opinion no action is needed at this time.

COGCC Decision: **Not Approved**

COGCC Representative: COGCC Decision "Not Approved". Associated tank battery for this well is not present at this well location. Battery is located ~0.4 miles southeast of the well on both a separate location and access road. The corrective action to update well sign with emergency contact information remains applicable.

Additionally, by submitting a resolution stating "Corrective Action Complete", operator is providing notice to the state that the corrective action has been addressed in its entirety. Operator comments within this form indicate that the corrective action has not been completed; this is considered a falsified FIRR submission. Operator should have submitted a request for factual review in this situation.

2 ☒ CA# 120202

Corrective Action: Comply with Rule 603.f and remove unused equipment. Date: 12/06/2018

Response: CA COMPLETED Date of Completion: 11/12/2018

Operator Comment: REMOVED PIPE/RODS FROM SITE. SEE ATTACHED PICTURE TO SHOW REMOVAL.

COGCC Decision: Approved

COGCC Representative: Attached photo document shows unused equipment removed. This satisfies the corrective action.
