| Compaction | Pass | Culverts | Pass | | | |
| Ditches | Pass | | | | | |
| Gravel | Pass | | | | | |
| Waddles | Fail | | | | | Soome have become Debris |

Comment: Stormwater concerns from previous Construction inspection have been addressed. Wier has been installed at SW corner of site. Berms have been repaired. South Entrance & access road to Pad appear to have been stabilized and flooding concerns addressed with appropriate BMPs installed.

Wattles become Debris at end of functioning life & if no longer needed for stabilization of site should be removed.

Corrective Action: Remove Wattles that have become Debris; contingent on weather; if frozen to ground may have to incorporate with reclamtion activities in Spring 2019. Reinstall damaged Wattles if still neccessary for site stabilization.

Date: 12/31/2018

Pits: ☒ NO SURFACE INDICATION OF PIT
