General Comment:

This is an environmental inspection. Any corrective actions from previous inspections that have not been addressed are still applicable. Photos attached to document site condition at the time of inspection.

COGCC Environmental Inspection of Spill #458918 (Doc#401831157). There were no operator or contract environmental personnel on location at the time of this field inspection. Spoke with water haulers who had recently vacuumed western pit.

Type	Management	Condition	GPS (Lat)	(Long)
Comment	Remedial groundwater removal at time of inspection. Operator is instructed to provide disposal manifests with Form 27. All excavated impacted soils have been removed from site. Overburden stockpiled adjacent to excavation.			
Corrective Action				Date: <input type="text"/>

Spill/Remediation:

Comment:	Excavation ongoing (not active) at the time of inspection. Impacted soils extend through vadose zone into the capillary fringe. Western pit had been recently purged of all groundwater and recharge was carrying impacted sediment along the southeastern wall (Photos 5 & 6). Groundwater had stabilized in eastern pit no sheen observed.	
Corrective Action:	<input type="text"/>	Date: <input type="text"/>
