**General Comment:**

This is a Reclamation focused Inspection. Inspection was prompted by a Variance Request Doc#400864273, submitted in 2015 & withdrawn 11/22/16 at Operator request per Form4 Comments "New Operator, Laramie cannot Access forms that were pushed back to Draft to OXY. They (Laramie) will resubmit using New Guidance Doc". Well & Location do not have Form 10s on File changing Operator to Laramie. New Variance Request has not been submitted by Laramie.

In discussion 11/26/18; Operator, Laramie, verbally took responsibility for Location and indicated they would research & pursue documentation needed to resolve ownership of Location and follow up on submittal of 502b Variance Request. Inspection is being sent to Operator of record, OXY USA Inc & Laramie Energy.

This inspection is to document conditions and compliance with Stormwater, Erosion, Reclamation and Noxious Weed 1004 series Rules at Location. Please be aware that there are Three (3) CAs in the Reclamation section of this Inspection.
