

Name of Person performing monitoring	Date of monitoring	Assigned API #	Wexpro Field Name	Wexpro Well Name	QTQT	Section	Township	Range	Facility: anything other than a wellsite (i.e. plant)	Constructed: pad built, ready to drill, no interim reclamation has occurred	critical problems (i.e. noxious weeds, erosion, seeding failure)	Stable: no evidence of erosion	Grazing Use Level (use BLM's landscape appearance method for classifying grazing use level). NONE, SLIGHT, LIGHT, MODERATE, HEAVY or SEVERE
									Well: actual well site	In Operation: interim reclamation has occurred	At Risk: some reclamation criteria has been met, treatment could	Moderate: Obvious evidence of erosion (less than 15% of site)	
Plugged & Abandoned: no facilities on location, may or may not have disturbance	Acceptable: site meets most objectives and likely needs no further treatment	High: Obvious erosion (more than 15% of site)											
Nikki Andresen	7/12/2018	05-081-07013	POWDER WASH	CHAPMAN STATE 2	SESW	16	11N	97W	Well	Plugged & Abandoned	Unacceptable	Stable	Deer, Rabbit

Is there an open pit on location? <b>YES or NO</b>	Does reclaimed area blend in with the surrounding undisturbed landscape? <b>YES, NO or N/A</b>	<b>Reseeded- Provided.</b> N/A if date unknown	Reclamation Area Fenced? <b>YES, NO or N/A</b>	Fence is Effective? <b>YES, NO or N/A</b>	<b>Initial Access road width (feet)- Provided.</b>	<b>Current Access Road width (feet)- Driveable surface.</b>	<b>Access Road length (feet)- Provided.</b>	<b>Initial Road Disturbance</b> (acres). This will be calculated automatically based on initial road width and length.	<b>Current Road Disturbance</b> (acres). This will be calculated automatically based on current road length and width.	<b>Initial Pad disturbance</b> (acres). <b>Provided</b> , unless it is a new well for that year.	<b>Current Pad Disturbance</b> (equipment area) of the pad (acres).
