RE: Rule 317.s. – Consent/Waiver to Statewide Fracture Stimulation Setback
Melbon 4C-17H-M265

Dear Mr. Ingram,

The purpose of this letter is to seek Kerr-McGee Oil and Gas Onshore LP's ("KMG") consent to Crestone Peak Resources Operating LLC, Melbon 4C-17H-M265 well that will be within 146 feet of an existing wellbore, namely the Sunflower 7N-20HZ well (API No 05-123-42069). SWSW Sec 17, T2N-R65W.

Colorado Oil and Gas Conservation Commission (COGCC) Rule 317.s provides:

s. Statewide Fracture Stimulation Setback.

(1) No portion of a proposed wellbore's treated interval shall be located within 150 feet of an existing (producing, shut-in, or temporarily abandoned) or permitted oil and gas wellbore's treated interval belonging to another operator without the signed written consent/waiver of the operator of the encroached upon wellbore. The signed written consent/waiver shall be attached to the Application for Permit-to-Drill, Form 2 for the proposed wellbore.

(2) The distance between wellbores measurement shall be based upon the directional survey for drilled wellbores and the deviated drilling plan for permitted wellbores, or as otherwise reflected in the COGCC well records. The distance shall be measured from the perforation or mechanical isolation device.

Please evidence Kerr McGee's written consent/waiver below and return this letter to laurie.wizeman@Crestonepr.com at your earliest convenience. Thank you and please contact me with any questions.

Sincerely,

Laurie J. Wizeman, RPL

Land Negotiator

Kerr McGee Oil and Gas Onshore LP hereby provides written consent pursuant to Rule 317.s. for Crestone Peak Resources Operating LLC well Melbon Ranch 4C-17H-M265 to be located within 146 feet of an existing wellbore, namely the Kerr McGee Oil and Gas Onshore LP Sunflower 7N-17HZ well (API No 05-123-42069).

ACCEPTED AND ACKNOWLEDGED:

BY:

John H. Heade
