3 ☒ CA# 119124

Corrective Action: Repair required BMPs per Rule 1002.f.

Date: 10/05/2018

Response: CA COMPLETED

Date of Completion: 10/15/2018

Operator
Comment: Waiting for weather to clear to repair the berm.
The non stop rain made the corrective action date difficult to meet. As soon as the rain lets up and location dries up slight Berry will fix the berm as needed.
Also it is noted in the inspection report that the pile of material was assumed to be landfarm material, which it is not. The material is clean backfill material that was left over from a previous excavation on location, and will be spread out on location at the time that we repair the berm.
Expected date of correction 10/15
Response noted as complete to satisfy the form, please reference comments on all CA's.

COGCC Decision: Approved pending re-inspection
