COMMENTS:

XTO pumped TFW down production casing 12/3/2018 to attempt to push stuck WL tools back downhole and restore the well to production. Production casing held 8600 psi firm after 2 bbls were injected and the tools did not move. XTO will next progress coil tubing operations to push tools downhole. XTO requests an extension to 4/31/2019 to address letter #401739097 as weather conditions are not suitable for a coil tubing rig.
