Type	Area	Volume		
Produced Water	WELLHEAD			
Comment:	NE FIU supervisor was advised of a possible fluid spill / release near this well. I was asked to conduct an inspection. Upon my arrival I met with the company field operator who was on site. Site appeared to have less than 5 Bbls of what appeared to be water covering an area of approximately 25' x 10' around the wellhead. I did not observe any hydrocarbons that were released. Field operator stated that Foundation Energy regulatory dept. has been advised of the incident. Field operator advised that vac truck was enroute to help with cleanup.
