Operator Comment: Weeds were sprayed on 6/8/18.
After weed control was completed in June, upon returning to location to complete further reclamation, it was determined that clean hydrovac slurry had been disposed of on the site by an unknown party (believed to be related to the nearby construction activities).

Slurry was scraped up and removed from location. Compaction relief, soil amendments, seedbed prep, seeding and straw mulching/crimping was completed on the access road and wellsite.

COGCC Decision: Approved

COGCC Representative: COGCC Staff, Chris Binschus, confirmed that corrective actions were completed and documented on 11/6/2018 with Field Inspection Report Doc. #682404159.
