General Comment:

Purpose of inspection was to meet RAM-CO Services representative at well to discuss scheduling flow line abandonment work on W flow line off wellhead. He will call in locate request today with work starting possibly Tuesday(18th)/Wednesday(19th).

I was able to contact tenant in rental property. I informed him that we have been attempting to contact landowner concerning well but to date had no response from them. He stated that he had left messages for them providing them our contact information left on the gate from previous visits but he had not received a call back from them either. I informed him that the gas would be shut off at the well and we would prefer to allow them time to provide a secondary source of gas without just shutting the house gas off but it was not an open ended time frame.
