Environmental	The Colorado Oil & Gas Conservation Commission (COGCC) has reviewed and hereby approves your 10/06/2018 request for a determination of No Further Action at the above-referenced location. However, should future conditions indicate that contaminant concentrations in soils exceed COGCC standards, or if ground water is found to be impacted, further investigation and/or remediation activities could be required. Remediation Project 10962 (Kintz #1,2) will be closed in the COGIS database. Note that surface reclamation must meet the COGCC 1004 series rules.	12/18/2018
