**RE: Form 4 Sundry Notice – Final Reclamation
Kerr-McGee Oil & Gas Onshore LP (Operator: 47120)
BADDING 35-35, Location ID: 319409
SESW S35-T2N-R66W
Weld County, Colorado**

Dear Ms. Graves:

LT Environmental, Inc. (LTE) was contracted by Kerr-McGee Oil & Gas Onshore LP (Kerr-McGee) to complete final reclamation inspections at a plugged and abandoned (P&A) well site located in Weld County, Colorado. The reclamation inspection was conducted in accordance with Colorado Oil and Gas Conservation Commission (COGCC) Rule 1004.

The former Badding 35-35 well (API: 05-123-32063) was P&Aed on March 21, 2018, according to Form 6 Document Number 401614272; the former Badding 35-35 well is located on an active pad (Location ID: 319409). On September 19, 2018, LTE conducted a final reclamation inspection and determined that the site is in compliance with final reclamation requirements per COGCC Rule 1004. The associated tank battery is located on the well pad and remains in use servicing Kerr-McGee producing wells: API: 05-123-11206; API: 05-123-32039; API: 05-123-32040; API: 05-123-32041; API: 05-123-32042; API: 05-123-32043; API: 05-123-32045; API: 05-123-32046; API: 05-123-32048; and API: 05-123-32064. All disturbed areas have been compacted and stabilized with roadbase to minimize erosion. LTE personnel located the P&A wellhead location using a hand-held Trimble (R1) Global Positioning System (GPS) unit and latitude and longitude coordinates obtained from the COGCC online database. A general site location map is included as Figure 1; and the Site Map displaying the location of the reclaimed site on a 2018 aerial image is included as Figure 2. Photographs of the P&A site were taken facing each cardinal direction from the P&A wellhead location. The photographic log is included as Attachment 1.

Based on the successful reclamation of the Badding 35-35 site, a Form 4 Sundry Notice requesting final reclamation status has been prepared for submittal to the COGCC. This letter will be included as an attachment to the electronic Form 4 submittal.
