VEGETATIVE COVER \_\_\_\_\_

Comment:

Corrective Action:	Operator has failed to reclaim the main access road (red dashed line in aerial photo and Photos 1-2). Historic imagery indicates this was not a pre-existing road. The last well plugged along the main access road was 8/3/2015. Wind erosion and Russian thistle, annual weed, was observed along portions of the main access road.	Date <b>08/03/2016</b>
	Well location has patches of Russian thistle throughout the location and little to no desirable vegetation which is not reflective of reference area vegetation.	
Comply with Rule 1004. Corrective action date is being back dated to when all final reclamation activities should have been completed and based off when the last well was plugged (8/3/2015) along the main access road.		
Overall Final Reclamation	<b>Fail</b>	Well Release on Active Location <input type="checkbox"/> Multi-Well Location <input type="checkbox"/>
