General Comment:

This is an orphaned well inspection. Inspection completed to document progress and completion of well plugging and abandonment operation. Inspection may also identify possible task required for final closure/release of location from the Orphaned Well Program.

With no current operator task all will be prioritized and completed as part of well abandonment process within the Orphaned Well Program.

Idle Well

Purpose: Shut In Temporarily Abandoned Reminder: _____

Comment: Well status was reported as plugged and abandoned. Well was found to be in use supplying gas to residence and damage to 2" flowline. Well was SI by Inspector to complete flowline abandonment. P&A is in progress with well currently plugged back to approximately 180'.

Corrective Action: _____

Date: _____

COGCC Comments

Comment	User	Date
Previous operations currently have the well plugged back to approximately 180'. Decision was made to finish P&A of well to surface without use of rig. Rig released and demobilization of rig and support equipment. Location cleaned up and closed at 2:45PM with only tubing trailer and truck on location.	stjohnw	12/26/2018
