General Comment:

This is a follow-up construction and stormwater inspection. Any corrective action(s) from previous inspections that have not been addressed are still applicable.

Location Construction

Location ID: 455607 CDP: _____

Comment: Previous inspection documented disturbance area to be 1.23 acres. Contractor on site indicated that pad has been expanded an additional ~50 feet to the east and ~50 feet to the north.

Corrective Action: _____ Date: _____

Form 2A COAs:

Corrective Action: _____ Date: _____

Wildlife BMPs:

Comment: _____

Corrective Action: _____ Date: _____

Comment: Previous inspection documented insufficient stormwater/erosion controls were implemented on the location and required operator to install perimeter BMPs in accordance with 1002.f. Operator has installed a ditch along the perimeter of the location. Ditch appears to be in proper functioning condition.

Corrective Action: _____ Date: _____

1002b. SOIL REMOVAL AND
SEGREGATION

Fail

Comment

Previous inspection documented that sufficient topsoil salvage on the entire location did not appear to have been conducted. Inspection required operator to conduct topsoil salvage and segregation in accordance with 1002.b(1), and to provide detailed calculations of the amount of topsoil horizon that the operator salvaged, separated and stored for the location. Operator has not provided the detailed calculations and even though the pad has been expanded the salvaged topsoil stockpile appears unchanged. This corrective action has not been addressed and remains applicable.

Corrective Action

Conduct topsoil salvage and segregation in accordance with 1002.b(1). Provide detailed calculations of the amount of topsoil horizon that the operator salvaged, separated and stored for the location no later than 12/14/2018.
