<b>General Comment:</b>

This is a Final Reclamation Inspection for Location #335851 and Twelve AL Wells listed in Inspected Facilities above; APDs First Approved in 2006; Permits Abandoned in 2011 & 2012 by Encana. Location was Built; Wells were not Drilled.

This is a Follow Up to Failing Reclamation Insp Doc#680102531 Dated 12/21/17, which prompted Operator to Submitt Request for a Final Reclamation Variance. The Variance Request, Doc#401605556 was Approved 10/25/18 with the following COAs.

1. This variance is approved for a small portion of the well location and access road per the figure Caerus provide. The remaining portion of the location will be fully reclaimed and will have a vegetation cover of 80% of a reference area.
2. Caerus will maintain the un-reclaimed portion of the location in a weed free condition and without Stormwater issues until it has passed a final reclamation inspection.

CAs from Field Inspection Doc#689100124 Dated 3/14/18 have been Resolved.

Comment: Remaining Access road & Turnaround area are subject of Approved Variance.

Location meets Final Reclamation requirements. Vegetation cover and composition on location is sufficient and was assessed to be 80% of the surrounding area. No visible disturbance (beyond Variance Approved) or debris remains. Vegetation is well established with diverse species composition. See Attached Photos.
