General Comment:

This is a Final Reclamation Inspection for PA Well API#103-10317; Scout card has Spud Date of 5/5/2003; Plugged and Abandoned 10/20/2004; though Documents with specific "Dates of Work Done" were not found in Files. Other Operator submitted, 3/1/16, a Form 4 (#400998389) reporting Status of Reclamation at site & plans for continuing Reclamation activities. Other Operator, mistakenly thought this was a Historical site of theirs' that needed Final Reclamation for Bond Release. Reclamation activities at site had commenced when Eagle Operating corrected mistake & had Other Operator halt Reclamation activities.

TRANSECT RESULTS OF DISTURBED AREA% _____

TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

Comment: Location does not meet Final Reclamation requirements. The Location, including the well pad & access road, is not re-contoured, de-compacted, or properly re-vegetated. There is evidence of where Other Operator (as discussed in General Comment) had commenced Reclamation activities. Per COGCC 1004 Rules; Reclamation work was to be completed within 12 months on non-crop land after Plugging of Well, which would have been 10/20/05.

Corrective Action:	Perform Final Reclamation per COGCC 1004 Rules including re-contouring, seeding of site and access road. Install appropriate BMPs to stabilize location until vegetation establishes; all Reclamation Activities to be complete by May 1, 2019.	Date	05/01/2019
Overall Final Reclamation	Fail	Well Release on Active Location	<input type="checkbox"/>
		Multi-Well Location	<input type="checkbox"/>
