**General Comment:**

This is a routine field inspection, any corrective actions not addressed from previous inspections are still applicable.

This is not a Interim Reclamation & Stormwater focused Inspection, a Follow Up to Insp Doc#680102913 Dated 4/18/18. Any Corrective Actions from previous Inspections that have not been addressed are still applicable. Location was Built and Wells Drilled in 2017. It appears that as the last Well began Production in December 2017; that Interim Reclamation should occur in June 2018 (unless subsequent drilling operations are to be commenced within 12 months).
