**General Comment:**

[COGCC Environmental Inspection to determine the status of pit facility IDs 117831 and 108543.](#)

[Pit location could not be determined based on historical documents or aerial imagery. The historical pit was likely replaced with a produced water vault. Pit 117831 appears to be a duplicate of pit 108543 and status has been changed to closed; pit 108543 status has been changed to Active. Upon vault removal the Operator shall submit a Form 27 Site Investigation and Remediation Workplan for the removal of a buried/partially buried produced water vessel in accordance with Rule 905.b.; the vaults and pit may be closed with the same Form 27.](#)
