COMMENTS

All available resources were consulted to locate water sources which comply with Rule 609. Two potential water sources were located (springs 3905436 and 3905577). However, due to winter conditions these locations were deemed to be unsuitable/inaccessible and will be sampled in the spring.

| Environmental | A review of information available on COGIS maps indicates that there is no water feature that meets the 100 series definition of a water source within 1/2 mile of the oil/gas well(s) that has not been properly addressed by the operator. | 01/28/2019 |
| Environmental | Returned to draft so the operator may make corrections. Based on the information in the Sundry the operator should be requesting four exceptions to Rule 609 instead of two. | 01/25/2019 |
