Subject: State 1-36, REM 11542
To: Mark E. Brown <mark@markusproduction.com>

REM# 11542
Doc# 2528939
Date: 01/04/2019

Mark,

I was checking in with you on the State 1-36. We have not seen any official updates since the work was done in 2018.

Please have a Form 27, Supplemental Report submitted by 1/31/2019.
What we are looking for:

- A report of work done from October 2018.
- A request for closure, if data is adequate to demonstrate that soil concentrations are below table 910-1.
- If soils remain that are greater than Table 910-1, a plan and date for when work will continue should be included. It is not expected that this work be done while winter is in, in North Park. The submitted form will be Markus Production's intent to complete the project.

Thank you, feel free to contact me for anything.
