Location

Lease Road:			
Type	Access		
comment:	Cannot access road not maintained Comments from previous inspection on road Main road has multiple areas of erosion across roadway and sediment migration down gradient of road surface. This location is a federal surface hence the inspection is being forwarded to a BLM representative so they may respond to the operator on what actions should be implemented. The road would not meet the COGCC stormwater rules for erosion and sediment migration.		
Corrective Action:	Repair and maintain lease road.	Date:	03/18/2019
