Appears interim reclamation activities have been performed to reduce disturbance areas only needed for production operations. A vegetative assessment was not performed because crop field is currently fallow. Operator shall continue to monitor and manage this site until the location meets Rule 1004 standards. Operator shall submit a Form 4 Final Reclamation Complete notice when the location meets Rule 1004 standards. COGCC may conduct follow-up inspections prior to receiving said notice to ensure compliance with Rule 1004.

Operator has failed to stabilize production areas to minimize erosion per Rule 1003.b. Erosion was observed along the perimeter of the production area. Refer to the attached inspection photos.

Corrective Action Comply with Rule 1003.b. to abide by Rules 1002.e.(1) and 1002.f.(2).
