**General Comment:**

This is a follow-up Interim Reclamation and Stormwater inspection to Field Inspection Report Doc.# 682404331.

The following Corrective Actions were observed during the inspection:

1) Rule 603.f., Operator has failed to perform the previous corrective action.

2) Rule 1003, Operator has failed to perform the previous corrective action.

Corrective action dates are being back dated to the previous corrective action date.

This inspection is being entered for notification and documentation only and is not intended to provide the Operator the opportunity to resolve the alleged violations without the imposition of a penalty, pursuant to Rule 522.c.

End of summary.

1003 f. Weeds Noxious weeds? \_\_\_\_\_

Comment

Operator has failed to perform the previous corrective action.

Comment from previous inspection: Production areas have not been stabilized and maintained in such a way as to minimize dust and erosion to the extent practicable. Note: Operator will likely need to implement stabilization BMPs throughout the interim reclamation area after managing Russian thistle. There did not appear to be sufficient vegetation establishment within the Russian thistle.

Corrective Action

Comply with Rule 1003 and properly stabilize production areas and interim areas.Date 01/24/2019Overall Interim Reclamation Fail**Final Reclamation/ Abandoned Location:**
