1002c. PROTECTION OF SOILS           In Process          

Comment Topsoil stockpiles have been temporarily stabilized with hydromulch. Hydromulch by itself is likely not sufficient to prevent weed establishment per Rule 1002.c. Refer to the attached inspection photos.  
  
Per Rule 1002.c., all stockpiles shall be protected from degradation due to contamination, compaction and, to the extent practicable, from wind and water erosion during drilling and production operations. Per Rule 1002.c., BMPs to prevent weed establishment and to maintain soil microbial activity shall be implemented.
