TRANSECT RESULTS OF DISTURBED AREA% _____

TRANSECT RESULTS OF REFERENCE AREA% _____

TOTAL % OF DESIRABLE VEGETATION COVER _____

VEGETATIVE COVER _____

Comment: The access road has been recontoured and reclaimed. Stormwater controls are installed. The vegetation at the beginning of the access road does not appear to be establishing very well. Further along the road more vegetation establishment was noticed. The location was observed from a distance but was not inspected. Continue to monitor vegetation establishment and reseed as needed.
