SUNDRY NOTICE

Submit a signed original. This form is to be used for general, technical and environmental sundry information. For proposed or completed operations, describe in full in Comments or provide as an attachment. Identify Well by API Number; identify Oil and Gas Location by Location ID Number; identify other Facility by Facility ID Number.

OGCC Operator Number: 10412	Contact Name: Tim Hart	Complete the Attachment Checklist

GROUND WATER SAMPLING

Uses of Ground Water Sampling Section

Request an Exception to Ground Water Sampling Requirements in Greater Wattenberg Area Rule 318A.e(4) or in Statewide Rule 609.c. Request a Previously Sampled Water Source in the COGIS database be used to meet sampling requirements as described in Rule 609.d. (3).

NOTE: If this Sundry Notice is being submitted to request a Ground Water Sampling Exception it cannot be used for any other purpose except requesting the use of a Previously Sampled Water Source in the COGIS database.

- ☐ Request an Exception to Ground Water Sampling Requirements per Greater Wattenberg Area Rule 318A.e(4):There are no Available Water Sources located within the governmental quarter section or within a previously unsampled governmental quarter section within a ½-mile radius of this proposed Oil and Gas Well, Multi-Well Site, or Dedicated Injection Well.
- ☒ Request an Exception to Ground Water Sampling Requirements per Statewide Rule 609.c.

1

Number of Water Sources located within one-half (1/2) mile of a proposed Oil and Gas Well, Multi-Well Site, or Dedicated Injection Well.

4

Number of Water Source Exceptions requested per Rule 609.c.

1

Number of Water Sources determined to be unsuitable. **The condition of these Water Sources MUST be documented in the comments below or in an attachment.**

0

Number of Water Sources suitable for testing whose owners refused to grant access despite an operator's reasonable good faith efforts to obtain consent to conduct sampling.
The reasonable good faith efforts used to obtain access from the owners of these Water Sources MUST be documented in the comments below or in an attachment.
- ☐ Request a Previously Sampled Water Source in the COGIS database be used to meet sampling requirements as described in Rule 318A.f.(2)A. (for Initial Baseline (pre-drill) ONLY) or 609.d.(3).

Type of Sample Substitution Request

Enter Sample ID Number from COGIS Maps for each Previous Water Sample:

Sample ID	Facility ID	Sample Date	Sample Purpose

COMMENTS

One Water Source (known by the Colorado Department of Water Resources as permit receipt number 9085753) was identified within a 0.5 mile radius of the JW Powell #23-35 production wellhead (Site). No other Water Sources were identified within a 0.5 mile radius of the Site.

On February 27, 2019, a representative of the Water Source owner (Mr. Carl Colgin, Town of Rockvale) was contacted via phone to obtain information regarding specifics of the Water Source. Mr. Colgin stated that the Water Source consists of a "gravity feed sand trap" that is completed in a shallow alluvial aquifer which collects and transports water through an underground piping system. Mr. Colgin also stated that a pump is not present in the well, there is no tap at the surface, and sample collection from the Water Source would not be possible without the use of specialized sampling equipment. Based on this information, the well is unsuitable for sampling pursuant to COGCC Rule 609.b.5. and Fremont is requesting an exception from the requirements of Rule 609 for the Site.

Operator Comments:

General Comments

User Group	Comment	Comment Date
Environmental	A review of information available on COGIS maps indicates that there is no water feature that meets the 100 series definition of a water source within 1/2 mile of the oil/gas well(s) that has not been properly addressed by the operator.	03/07/2019
