COMMENTS:

This well was previously shut in. A bradenhead and echometer test were conducted at the direction of COGCC to bring this well back into compliance and confirm mechanical integrity. Per Craig Burger and Shannon Chollett of the COGCC on 2/22/2019, this well is in compliance regarding wellbore integrity. It is Caerus' intent to return this well to production, and will be returned to production as soon as technically possible. Please see wellbore diagram and echometer results attached.
