SEGREGATION

Pass

Comment

Appears the Operator has salvaged a sufficient amount of topsoil. Refer to the attached inspection photos.

Corrective Action _____

Date _____

1002c. PROTECTION OF SOILS _____ In Process

Comment

It appeared the Operator had recently completed topsoil salvage operations. Operator shall properly stabilize topsoil stockpile upon completion of the construction operations.

Per Rule 1002, all stockpiles shall be protected from degradation due to contamination, compaction and, to the extent practicable, from wind and water erosion during drilling and production operations. Per Rule 1002, BMPs to prevent weed establishment and to maintain soil microbial activity shall be implemented.

<p>Comment: Operator shall ensure perimeter BMPs are installed around the outermost disturbance area (Pic#3). Ditch and wattle BMPs were installed around portions of the Location. Wattle BMPs were not staked and more wattles were scheduled to be installed the day of this inspection.</p> <p>It is COGCC's expectation that a stabilized outlet structure be installed at all oil and gas locations. If not, provide COGCC Staff with construction calculations from the site specific stormwater plan demonstrating that a stabilized outlet structure is not required. A follow up inspection will be conducted to ensure Operator is in compliance with Rule 1002.f. standards.</p>
