OPERATOR COMMENT AND SUBMITTAL

Comment: Since Mallard Exploration acquired this location from another operator and was not involved in the pad construction, Mallard is completing an as-built survey of the location to determine if the BMPs have been designed and constructed in accordance with good engineering practice. Mallard will have a third party engineering firm review the as-built survey and provide sizing calculations. If the BMPs are found to be insufficiently sized, a site specific stormwater management plan will be submitted to the COGCC and implemented in the field.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
