### CORRECTIVE ACTIONS:

1 ☒ CA# 123113

Corrective Action: Immediately install or repair required BMPs per Rule 1002.f.

Date: 03/08/2019

Response: CA COMPLETED

Date of Completion: 03/11/2019

Operator Comment: BMP ditches that were breached have been cleaned and re-bermed to control stormwater. Mallard Exploration is conducting additional field research regarding sizing and sufficiency of all BMPs on location.

COGCC Decision: Approved pending re-inspection

COGCC Representative: Approved pending re-inspection of this FIR resolution acknowledges the resolution was received. It is not an acknowledgement that the corrective action has been passed. Operator has not provided any documentation showing corrective action has been addressed, a field inspection will be conducted at a future date to evaluate compliance with COGCC Rules.

**OPERATOR COMMENT AND SUBMITTAL**

Comment: Since Mallard Exploration acquired this location from another operator and was not involved in the pad construction, Mallard is completing an as-built survey of the location to determine if the BMPs have been designed and constructed in accordance with good engineering practice. Mallard will have a third party engineering firm review the as-built survey and provide sizing calculations. If the BMPs are found to be insufficiently sized, a site specific stormwater management plan will be submitted to the COGCC and implemented in the field.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
