COGCC Rules(check all that apply)

1101. Installation and Reclamation     1102. Operations, Maintenance, and Repair     1103. Abandonment

Comment: GWOG contractors on site informed COGCC inspector of a schedule to abandon a section of natural gas gathering line previously servicing the Grein #1 (API 001-08315) and Bailey #1 (API 001-08223) wells. The gas line runs E-W between the locations and NE to a gas meter adjacent to E 168th Ave. The line is estimated to be 3000' in length and scheduled to be abandoned per COGCC rule 1105 (risers removed, flushed and ends sealed with cement plugs)

Note: COGCC Rule 1105.d. (as applicable) Within 30 days of an operator completing abandonment requirements for an off-location flowline or crude oil transfer line the operator must submit a Flowline Report, Form 44, to the Director. If the operator abandons an off-location flowline and has not submitted latitude and longitude for the flowline's risers, the Flowline Report, Form 44, must include this information.
