RE: Rule 317.s. – Consent to Statewide Fracture Stimulation Setback

Dear Robert,

Crestone Peak Resources Operating LLC ("CPR") as Operator, hereby seeks the consent of Kerr-McGee Oil & Gas Onshore, LP ("KMG") to be within 150 feet of the Firestone 20-29D per the following proposed wells located in Weld County, Colorado:

<u>Proposed Well:</u>	<u>Offset Well:</u>	<u>API:</u>	<u>Distance</u>
Bighorn 4J-17H-P267	Firestone 20-29D	123-30083	121'
Bighorn 4N-17H-P267	Firestone 20-29D	123-30083	136'

Colorado Oil and Gas Conservation Commission (COGCC) Rule 317.s provides:

**s. Statewide Fracture Stimulation Setback.**

(1) No portion of a proposed wellbore's treated interval shall be located within 150 feet of an existing (producing, shut-in, or temporarily abandoned) or permitted oil and gas wellbore's treated interval belonging to another operator without the signed written consent of the operator of the encroached upon wellbore. The signed written consent shall be attached to the Application for Permit-to-Drill, Form 2 for the proposed wellbore.

(2) The distance between wellbores measurement shall be based upon the directional survey for drilled wellbores and the deviated drilling plan for permitted wellbores, or as otherwise reflected in the COGCC well records. The distance shall be measured from the perforation or mechanical isolation device.

Please evidence KMG's written consent for the location of the Bighorn 4J-17H-P267 and Bighorn 4N-17H-P267 wells and return this letter via email: [sheila.frazier@crestonepr.com](mailto:sheila.frazier@crestonepr.com) at your earliest convenience. Thank you and please contact me at 720.410.8480 with any questions.

Sincerely,

*Sheila Frazier*  
Sheila Frazier, CPL
