Comment:

Earthen containment berms around the tank are retro-fitted with open pipe fencing as an alternate engineering technology in compliance with Rule 603.h.(2).C. Attached is a schematic of PDC's open pipe fencing. The Commissions Floodplain Rule 603.h Guidance identifies such fencing as an "alternate technology" that provides "equivalent protection from floodwaters and debris". The Guidance further explains that locations that use appropriate alternative technologies shall be deemed "in compliance with this Rule as a variance per Rule 603.h.(2).E. Accordingly, no variance should be necessary for the use of open pipe fencing, which is a requirement for

Weld County. See attached Weld County Floodplain permit (FHDP15-0017).
