Reclamation - Storm Water - Pit**Storm Water:**

Loc Erosion BMPs	BMP Maintenance	Lease Road Erosion BMPs	Lease BMP Maintenance	Chemical BMPs	Chemical BMP Maintenance	Comment
		Tracking Pad	Fail			
				Material Handling And Spill Prevention	Fail	

Comment: Storm water issues: Inadequate berms around Acid containers.
Tracking pad not installed or not adequately maintained to prevent track of material offsite

Corrective Action: Install or repair required BMPs per Rule 1002.f.
Maintain vehicle tracking BMPs on the oil and gas location to comply with rule 1002.f.(2)F.
If material is tracked onto County or public roads, contact the appropriate authority.

Date: 04/27/2019

Pits: ☒ NO SURFACE INDICATION OF PIT

<p>COGCC Inspection Report Summary</p> <p>On Wednesday March 27, 2019 at approximately 1500 hrs. I Randy Silver, conducted an on-site inspection at a Select Energy Services facility. Facility LSWD #1 Facility #159372 in Weld county Colorado.</p> <p>While there, I observed a UIC injection facility</p> <p>During this inspection the following possible compliance issues were observed:</p> <p>Unused equipment: Rule 603f Corrective action date of 6-27-19 See photos 3,4,5,6,7,9,10,16</p> <p>Signs and placards not legible or missing: Rule 210 e Corrective action date of 4-27-19 See photos 5,6,7,10,12,17,18</p> <p>Storm water issues secondary containment: Rule 1002 f Corrective action date of 4-27-19 See photos 6,7,8,9,10</p> <p>Secondary containment: Rule 906 d (1) Corrective action date of 4-27-19 See photos 6,7,8,9</p> <p>Mechanical issues: Rule 605 d Corrective action date of 4-27-19 See photo 8</p> <p>Stained soil: Rule 907 e Corrective action date of 4-27-19 See photos 13,14,15</p> <p>Tracking pad: Rule 1002 f (2) F Corrective action date of 4-27-19</p> <p>I spoke with Barbara Ries Operations manager for the Select UIC injection facility on Tuesday March 26, 2019 at approximately 1400 hrs. We walked around the facility looking at corrective actions around facility. In our discussing about the Recycling battery she informed me the facility had not been used in 2 to 3 years and the main line to the battery has been cut and capped. The inspection plates on some of the tanks had been taken off at time of inspection also a heater tube for the tanks was laying outside the tanks. I discussed with her that the battery was considered unused equipment since it was not functional at time of inspection. I informed her I would not complete my inspection till I researched supporting documents and discussed inspection with my supervisor. I returned on Wednesday March 27, 2019 at approximately 1500 hrs to take remaining photos and finished inspection.</p> <p>A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.</p> <p>This is a summary of inspection report.</p>	silverr	03/27/2019
