COGCC Comments

Comment	User	Date
Arrived on location at approximately 1345 hrs Wednesday March 27. At time of inspection I observed crew performing soil and water samples during the location closer process. At entrance to location i observed minimal amounts of sediment on county road. While I was on location crew installed small tracking pad at entrance to location. I spoke with David Tewkesbury Creston rep, he informed me they had street sweeper on site and were periodically cleaning county road. He also stated he spoke with land owner before my arrival on location and he stated landowner was ok with construction taking place on his property. Crestone rep David Tewkesbury provided me with 1-call ticke# A9042200322. Form 27 I Doc#401939079 to the COGCC is also approved.	silverr	03/27/2019
