Date: _____

Response: CA COMPLETED

Date of Completion: 02/14/2019

Operator
Comment:

Corrective action completed per Operator comments included on comment tab

COGCC Decision: Approved

COGCC Representative: Follow-up FIR #696100402 dated 03/07/2019 confirms Casing has been cut & capped below ground surface, addressing the Corrective Action.

OPERATOR COMMENT AND SUBMITTAL

Comment: The Hester 31-23 downholle plugging was completed per approved Form 6 intent, document 401836058 on 12/18 2018. The rig moved on 12/19/2018 leaving the 8 5/8' wellhead with cement at surface. Cattle fencing was installed to protect the wellhead. On 2/14/2019 the 8 5/8" wellhead was cut off and capped at a depth of 8 feet below surface. Solid cement was encountered at 5 feet below surface. The area surrounding the capped wellhead is currently dug out and waiting on soil samples to be analyzed. The disturbed wellhead area will be enclosed with temporary orange construction fencing until the excavation is backfilled.

I hereby certify that the statements made in this form are, to the best of my knowledge, true, correct, and complete.
