<p><b>COGCC Inspection Report Summary</b>                      On Wednesday March 27, 2019 at approximately 1238hrs. I Randy Silver conducted a follow up on-site inspection at a M E III corporation, site Perry #1 API #05-123-09423 in Weld County Colorado.                      While there, I observed a well site and production facility.                      During this inspection the following possible compliance issues were observed:                      Equipment not anchored: Rule 603 h Corrective action date of 10-18-17 See photos 3,4                      Berms in floodplain: Rule 603h Corrective action date of 10-18-17 See photo 4                      Emergency contact number and btry sign: Rule 210b Corrective action date of 4-27-19 See photo 1,5</p> <p>This is a follow up inspection to doc #s 684904387 and 691401305. At time of inspection unused equipment, weeds and unused riser corrective actions appear to have been addressed. Lack of anchoring and berms in floodplain have not been addressed. In addition to previous Corrective actions, well head sign has no emergency contact number and tank battery has not sign.                      A follow up on this site inspection needs to be conducted to ensure the compliance issues have been corrected to comply with COGCC rules.</p>	silverr	03/27/2019
