**Photo 3.** Photo taken from the eastern topsoil stockpile on April 2, 2019, facing West. Operator has failed to stabilize the south-facing topsoil stockpile side since the previous inspection on 3/12/19. Also, leaving the stockpile steep like this would make it difficult to manage weed establishment.

**Photo 4.** Photo taken from the western topsoil stockpile on March 12, 2019, facing East. See comments under Photo 3.
