FIELD INSPECTION FORM

Loc ID 320971 Inspector Name: COSTA, RYAN On-Site Inspection 2A Doc Num: _____

Status Summary:

- THIS IS A FOLLOW UP INSPECTION
- FOLLOW UP INSPECTION REQUIRED
- NO FOLLOW UP INSPECTION REQUIRED

Operator Information:

OGCC Operator Number: 10237
Name of Operator: JONES ENERGY LTD
Address: 807 LAS CIMAS PKWY #350
City: AUSTIN State: TX Zip: 78746

Findings:

- 6 Number of Comments
- 1 Number of Corrective Actions
- Corrective Action Response Requested

ANY CORRECTIVE ACTION(S) FROM PREVIOUS INSPECTIONS THAT HAVE NOT BEEN ADDRESSED ARE STILL APPLICABLE

General Comment:

Reclamation Inspection.
This is a Follow Up of the previous inspections document #673502014, 673503262.
It does not appear that any reclamation corrective actions have been performed.

Operator is directed to perform corrective actions outlined on this inspection report immediately. This inspection is being entered for notification and documentation only and is not intended to provide the Operator the opportunity to resolve the alleged violations without the imposition of a penalty, pursuant to Rule 522.c.(1). Perform corrective actions immediately to avoid further enforcement and potential penalties.

Corrective Action:

Date **04/30/2015**

Remove and control weeds (debris) and Reseed the location and access road. Stabilize seeded soils (e.g. mulch).
Comply with 1004 Rules

Overall Final Reclamation

FailWell Release on Active Location Multi-Well Location **COGCC Comments**

Comment	User	Date
Perform reseedling and all reclamation practices as soon as possible to facilitate the establishment of desirable vegetation within this spring growing season in order to comply with the 1004 reclamation requirements. The undesirable vegetative debris will need to be removed to allow for proper reseedling. The soils need to be decompacted to a depth of 18inches and tilled to establish a proper seedbed. Once the disturbed areas have been reseeded a certified weed free mulch or equivalent soil stabilization method should be applied to the exposed soils. Weeds should be controlled to facilitate the establishment of desirable vegetation.	CostaR	03/29/2019
It appears the surrounding field is CRP vegetation. It is recommended that the soil at the location be sampled and analyzed to determine if soil issues exist. The soils seem to be compacted at the location which could be the reason that no vegetation grows.	CostaR	03/29/2019
Establish vegetation with total perennial non-invasive plant cover of at least eighty (80) percent of pre-disturbance or reference area levels. Use a seed mixture that matches the adjacent pastureland or a seed mixture requested by the landowner. Continue to monitor and manage this site until Final Reclamation has Passed.	CostaR	03/29/2019
