457869	SPILL OR RELEASE	CL	02/28/2019		-	9-41 Legacy Spill	EI

**General Comment:**

COGCC Environmental inspection. Follow up to Spill IDs #457569, #457570, #457869, and Remediation Projects #11988, #11986, & #12614.

Operator discovered produced water spills on the surface of the pad (Spill ID #457569) and east of pad, just north of the access road (Spill ID #457570) on 9/14/2018. It was agreed upon between the operator, COGCC, and BLM to address the impacted areas separately under respective Remediation Projects #11988 and #11986.

Operator reported discovery of historical impacts on the pad (Spill ID #457869) which were to be addressed under approved Remediation Project #12614.

Analytical results for all 9/17/2018 samples (except the Trench 3 sample) document SAR exceedances (docs #401792575 and #401792582). Trench 2, 4 and SS5 samples document exceedances for EC. Sample SS3 documents benzene exceedance (0.513 mg/kg) south of access road related to Spill #457570.

To date, the Operator has not submitted Remediation Project updates for Remediation Projects #11986, #11988, and #12614. The operator has also not provided Supplemental Spill Reports for Spill IDs #457569 and #457570. See Environmental section of this inspection report for corrective actions.

**Spill/Remediation:**

Comment: To date, operator has not provided project updates for Remediation Projects #11986, #11988, and #12614 subsequent to COGCC approval of their initial eForm 27 workplans. Operator was directed to submit updates for projects #11986 and #11988 as a condition of approval of doc #401915503 on 2/22/2019.

Corrective Action: Submit project updates for Remediation Projects #11986, #11988, and #12614. Operator shall provide documentation of work completed and address conditions of approval issued under corresponding F19 Spill Reports and approved Initial F27 workplans for each project.
