**Comments:** Samples were received by ALS in one cooler slightly below the temperature range criteria (4°C ± 2°C) at 1.9°C. The ALS lab courier did not use custody seals on the shipping container. Laboratory pH was analyzed out of analysis holding time, WWL qualified with "H"; result considered estimated. "J" qualifier assigned to bromide, nitrate/nitrite, nitrate, boron, iron, potassium, and total phosphorus sample results and to barium, boron, iron, and manganese method blank results to indicate a result greater than the method detection limit but less than the reporting limit. TDS ratio slightly outside of QC criteria, but data not qualified.
