Alex,

Per our discussion on the phone, attached is the Sundry Notice Form 4 that Mr. Spencer approved on 9.26.17 for the closure of the Philadelphia Creek pits outlined below:

- Philadelphia Creek #41            API# 05-103-08515 (Facility ID 101749)
- Philadelphia Creek #42            API # 05-103-08525 (Facility ID 101751)

Additionally, the COGCC database indicates that these pits have been closed, referencing the original Doc# in the comments (see screen shot below), which contained the sampling data.

**PHILADELPHIA CREEK 41 - #101749 Information**

[Related](#) [Insp](#) [GIS](#) [Doc](#) [COA](#) [Orders](#)

Facility ID:	101749	Facility Name / No:	PHILADELPHIA CREEK 41 /
Operator Name / No:	ROBERT L BAYLESS PRODUCER LLC / 6720	Facility Status / Date:	CL / (9/23/1999)
County Name / No:	RIO BLANCO / 103	Location:	NESW 28 1S101W
Field Name / No:	PHILADELPHIA CREEK / 68700	Lat / Long:	39.931669 / -108.73915
Pit Use:		Offsite Disposal:	N/A

**Existing Site Conditions**

Sensitive Area:	Land Use:
Dist. to Water Source:	Surface Water:
Dist. to Ground Water:	Water Wells:

**Pit Design and Construction Data**

Size of PIT (feet):	Depth:	
Length:	Width:	
Calc. PIT Capacity (bbbls/day):	Perc:	
Daily Disposal Rates (bbbls/day)    Evap:	Liner Material:	Thickness:
PIT Type:	Net:	NO
Treatment Method:		
Pit Covering Fence:    YES		

**Comment:** See F-4 Doc#401413576 for closure data. Originally submitted 1/4/2013 but not processed by COGCC. Pit samples were Table 910-1 compliant. No further action.

As I mentioned, we were working under the direction provided by Mr. Canfield, which he indicated via e-mail in 2011 that these pits did not require the necessary Form 15 permit and therefore did not require the Form 27 closure process (see attached e-mail).

If the information outlined is consistent with your records and correct, Bayless will proceed with the reclamation of the PC #41 and #42 locations as planned.

If you have any additional questions, don't hesitate to give myself a call.

Kris
